INTRODUCTION

We first began operations in 2004 as Integrated Steel Construction Co. LLC. (ISCON) in the emirate of Dubai, with the principal activity being Industrial Plant Construction.

ISCON Engineering FZCO was established in 2011 as a manufacturing division of Integrated Steel Construction Co. LLC due to overwhelming and persistent requests from our customers.

ISCON Engineering FZCO is 'U' and 'S' certified by ASME and is a full fledged certified workshop authorized to carry out fabrication of coded vessels as per ASME Sec VIII Division 1 and stamping of pressure vessels.

ISCON Engineering FZCO is EN1090-2 and ISO 3834-2 certified.

ISCON Engineering FZCO is certified by Canadian Welding Bureau.

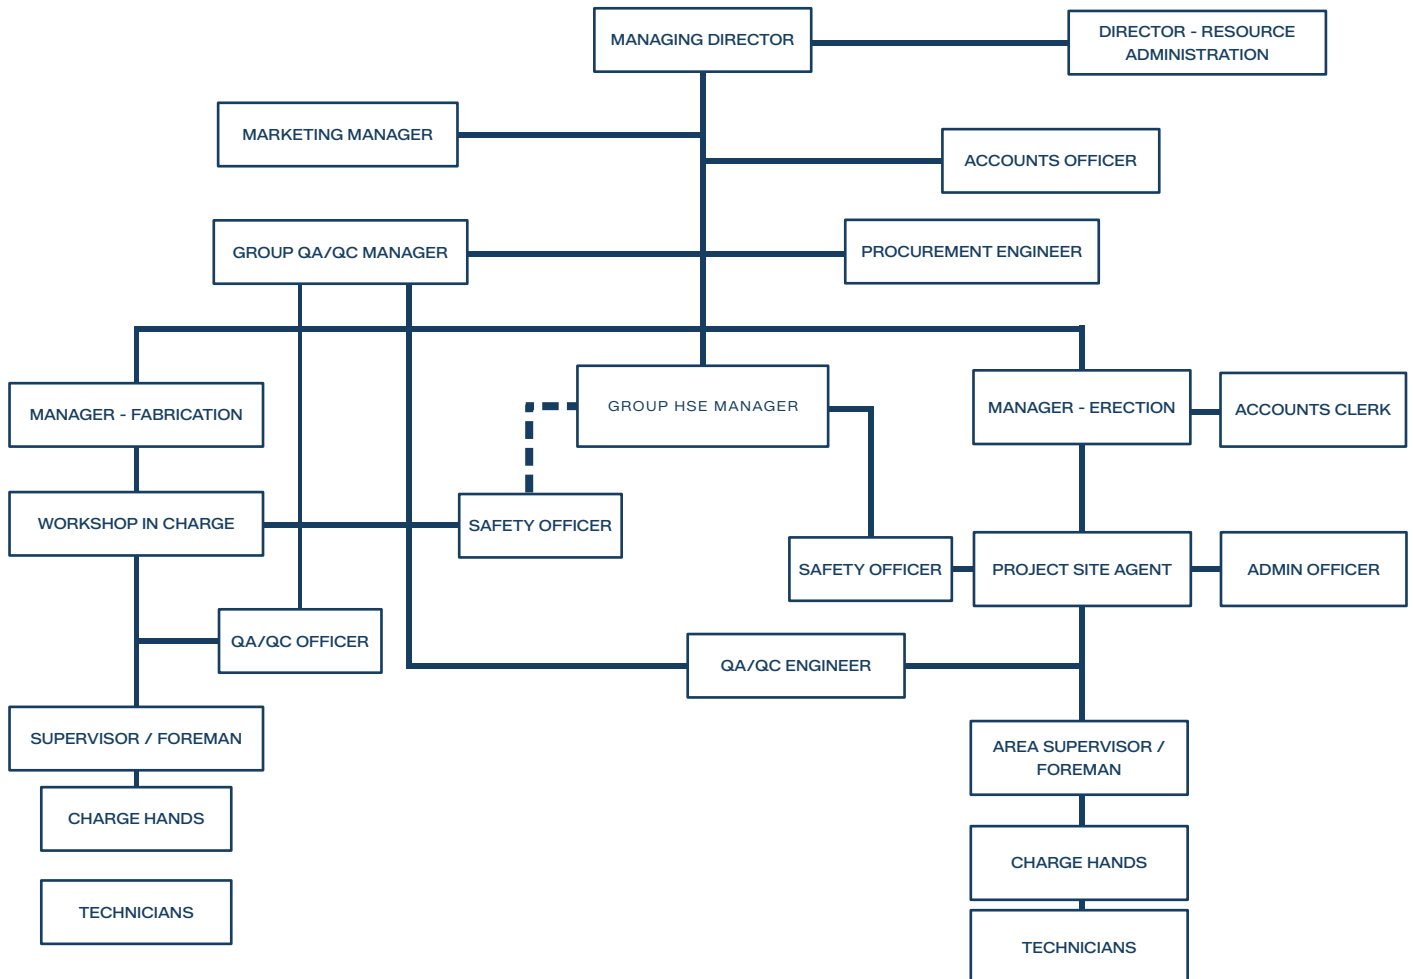

We are highly competent in the manufacture of DNV 2.7-1 and DNV 2.7-3 certified skids.

We offer **Design, Detail Engineering, Steel Fabrication and Erection services**, encompassing a wide range of steelwork for the Energy, Power, Oil & Gas, Aluminum, Mining, Cement and other industrial sectors. Over the years our projects have ranged from Greenfield to Extensive Refurbishments, from General Fabrications to Stacks to Oil Field Process Skids and Material Handling Equipments

Since our inception, we have enjoyed consistent growth, remaining profitable year on year. From our beginning as a small construction company to our position today, we remain strongly committed to providing outstanding service in the areas of Safety, Quality, Environment and Schedule requirements of our customers.

All of these services are part of our commitment to provide our clients with outstanding levels of customer service, value for money, commitment and sustained return on values to our stakeholders and employees.

- Certification of Registration – (DNV) – EN1090-2, ISO 3834-2.

CERTIFICATE OF CONFORMITY OF THE FACTORY PRODUCTION CONTROL

Certificate No.:
2388-CPR-43761 Rev. 0.0

Initial certification date:
2022-11-08

In compliance with Regulation (EU) No 305/2011 of the European Parliament and of the Council of 9 March 2011 (the Construction Products Regulation or CPR), this certificate applies to the construction product(s).

Structural steel components, for structural use in all types of construction works, Execution Class 2, within validity ranges as indicated in appendix on this Certificate.

placed on the market under the name or trade mark of

ISCON ENGINEERING FZCO

Plot No. S40410, Jebel Ali Free Zone, Jebel Ali, Dubai, P.O. Box 261425, United Arab Emirates

and produced in the manufacturing plant(s)

ISCON ENGINEERING FZCO

Plot No. S40410, Jebel Ali Free Zone, Jebel Ali, Dubai, P.O. Box 261425, United Arab Emirates

This certificate attests that all provisions concerning the assessment and verification of constancy of performance described in Annex ZA of the standard(s)

EN 1090-1:2009/A1:2011

under system 2+ are applied and that

THE FACTORY PRODUCTION CONTROL IS ASSESSED TO BE IN CONFORMITY WITH THE APPLICABLE REQUIREMENTS

This certificate will remain valid as long as neither the harmonised standard, the construction product, the AVCP methods nor the manufacturing conditions in the plant are modified significantly, unless suspended or withdrawn by the notified factory production control certification body. For more details see appendix accompanying this Certificate.

Certificate of appreciation

We hereby certify that **Integrated Steel construction Co.L.L.C.**, a company registered in Dubai, United Arab Emirates have been our sub-contractor for Fabrication of Aeration ducts for our following project in Saudi Arabia.

Project: Shuqaiq Steam Power Plant, Saudi Arabia
Main Contractor: Hyundai Heavy Industries
Owner: Saudi Electricity Company

Final Acceptance for this project was not reached yet, however we are glad to confirm that we are satisfied with the performance and cooperation of ISCON so far. They have fabricated their products at their fabrication shop "**ISCON Engineering FZCO**" located in Jebel Ali Free Zone, Dubai, U.A.E. No major non-conformances have been identified so far. All issues have been solved in a cooperative way and in appropriate time.

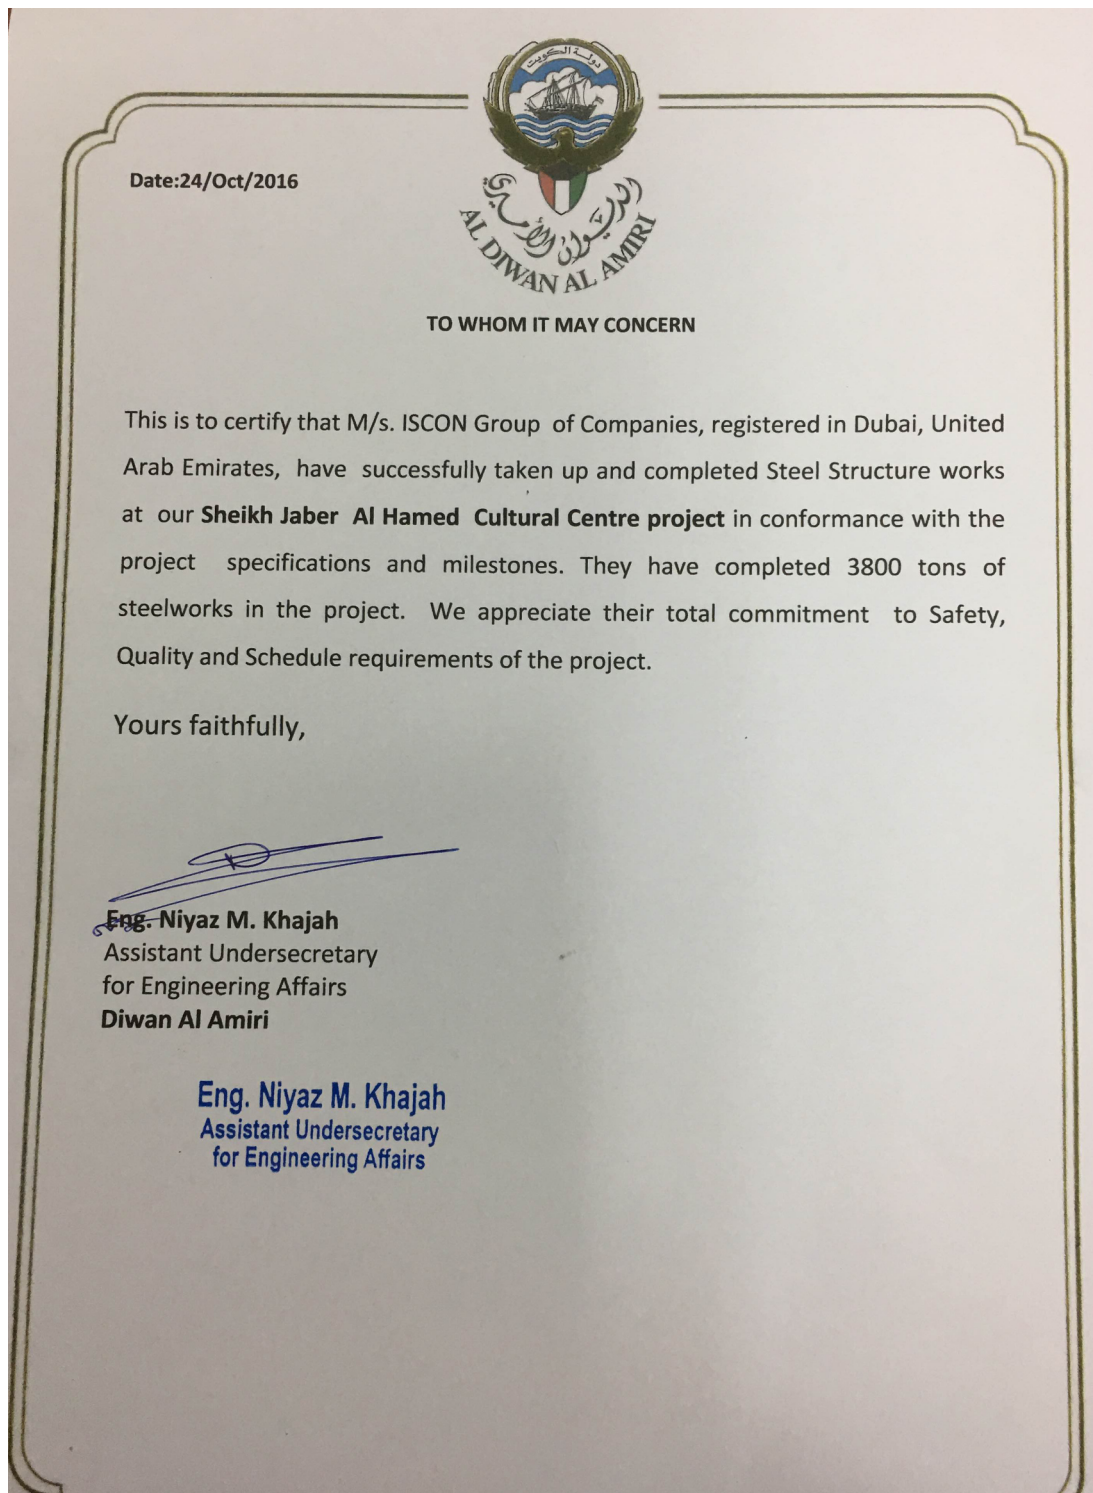

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'I. Seitz'.

• Norwegian Emission Abatement Technologies AS, Norway 2015

M/s. Integrated Steel Construction Co.LLC

1st December 2015

CERTIFICATE OF APPRECIATION

This letter serves to certify that M/s. Integrated Steel Construction Co.LLC (ISCON), having their offices in Dubai and Abu Dhabi in United Arab Emirates (UAE), has been a sub-contractor for Norwegian Emission Abatement Technologies AS for the Potline 8 additional 4 Dx pots at Dubal aluminium in Dubai, UAE executed in June 2015 to October 2015

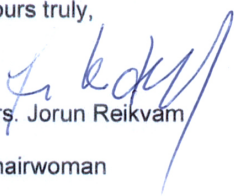

The project consisted of fabrication and installation services for new branch ducts for the 4 new DX aluminum smelter pots in an operating potline.

The on-time delivery of the fabricated parts and the professional approach to site works ensured that the overall project schedule for shutdowns were maintained according to schedule and the project were completed according to plan.

Their focus to Health, Safety and Environment, both in the fabrication process as well as for the site services and installation works, show a strong commitment in this field, and the ZERO lost time injury for the project is a great achievement.

ISCON has proven to execute the project on time and to the highest quality and EHS standards to the complete satisfaction of our management.

Yours truly,

Mrs. Jorun Reikvam

Letter of Appreciation – Conditioning Tower Replacement Project

On behalf of REEL Environmental Control Solutions, I would like to express our sincere appreciation to ISCON for your outstanding performance and partnership in executing the Conditioning Tower Replacement at Emirates Global Aluminium's Smelter in the UAE.

The project presented considerable technical and operational challenges. The existing conditioning tower – a 47-metre-tall, 4.5-metre-diameter structure weighing close to 100 tons – needed to be dismantled and replaced within a critical 72-hour shutdown window. The scope with REEL, executed with ISCON as main contractor, covered procurement, fabrication, removal of the old tower, installation of the new upgraded tower, and reconnection of all process lines to enable timely resumption of plant production.

ISCON's responsibilities covered fabrication, erection, installation, site management, and coordination of all essential subcontractors. The quality of preparation and leadership on site was evident. Extensive pre-shutdown planning laid the foundation for a flawless execution. The three-day shutdown itself, featuring multiple tandem lifts with 500-tonne cranes in tight spaces was executed with impressive precision and professionalism that impressed everyone present.

We would particularly like to recognize ISCON for its exemplary safety performance:

- More than 35,000 on-site man-hours worked with ZERO Lost Time Injuries (LTI).
- Robust risk management, including use of cold-cutting via water jets to eliminate fire risk.
- Intensive safety engagement and compliance with all customer requirements.

We wish to emphasize that ISCON's effective site management, technical competence, and dedication to safety and quality were essential for successful completion of this complex project. REEL Environmental Control Solutions is proud to have partnered with ISCON. We look forward to the opportunity to collaborate again on future projects.

With our sincere thanks and appreciation,

A blue ink signature of Mikkel SØRUM.

Certificate of appreciation

We hereby certify that **Integrated Steel construction Co.L.L.C.**, a company registered in Dubai, United Arab Emirates have been our sub-contractor for Fabrication of Aeration ducts for our following project in Saudi Arabia.

Project: Jeddah South Steam Power Plant Stage I, Saudi Arabia
Main Contractor: Hyundai Heavy Industries
Owner: Saudi Electricity Company

Final Acceptance for this project was not reached yet, however we are glad to confirm that we are satisfied with the performance and cooperation of ISCON so far. They have fabricated their products at their fabrication shop "**ISCON Engineering FZCO**" located in Jebel Ali Free Zone, Dubai , U.A.E. No major non-conformances have been identified so far. All issues have been solved in a cooperative way and in appropriate time.

Yours sincerely,

GE Power Norway AS

To whom it may concern

M/s. Integrated Steel Construction Co.LLC

18 December 2010

CERTIFICATE OF APPRECIATION

This letter serves to certify that M/s. Integrated Steel Construction Co.LLC (ISCON), having their offices in Dubai and Abudhabi in United Arab Emirates (UAE), has been sub contractor for Alstom Norway AS for the following projects in UAE:

Potline 79A Fume treatment centre	(work site Dubai Aluminium Co. Ltd.)	2005
Potline 79B Fume treatment centre	(work site Dubai Aluminium Co. Ltd.)	2006
Potline 56B Fume treatment centre	(work site Dubai Aluminium Co. Ltd.)	2007
Potline 123 Rehabilitation	(work site Dubai Aluminium Co. Ltd.)	2008
Potline 43 & 21 FTP refurbishment	(work site Dubai Aluminium Co. Ltd.)	2008
Potline 5 Amperage Increase	(work site Dubai Aluminium Co. Ltd.)	2008-2009
Gas Ducts Handling Systems	(work site Emirates Aluminium Co. Ltd.)	2008-2010
Piping & Electro-Mechanical works	(work site Emirates Aluminium Co. Ltd.)	2008-2010

Over the years ISCON have proved their capabilities in the execution of the above listed projects to the satisfaction of our management, and ensured on time delivery of all their scope of works to the highest quality standards.

Their excellent performance in the area of Health, Safety and Environment, with ZERO Lost Time Accidents over the years, show a strong commitment in this field and is an excellent achievement.

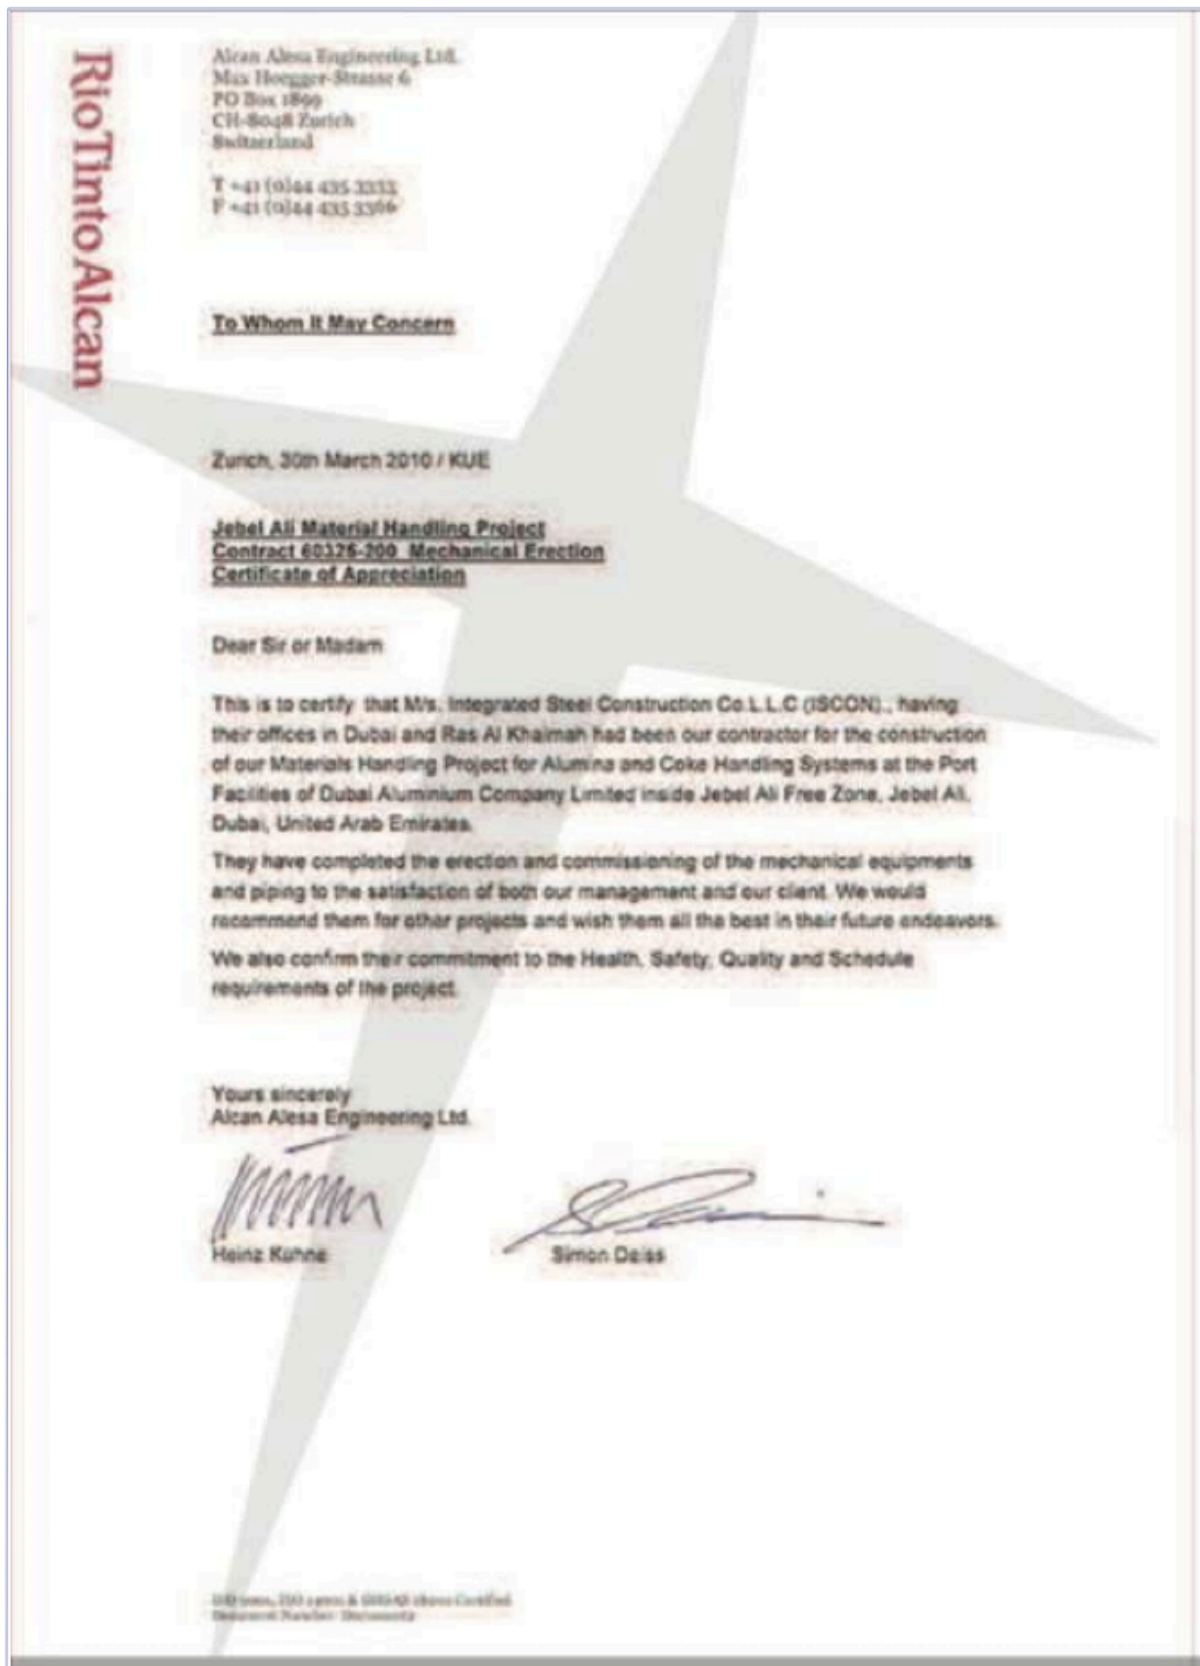

Kind regards

Raymond Johansen

Alumina Silo No.7 - Material Handling Systems
CERTIFICATE OF APPRECIATION**

Dear Sir or Madam

This is to certify that M/s. Integrated Steel Construction Co.L.L.C (ISCON), having their offices in Dubai and Ras Al Khaimah had been our contractor for the construction of our MATERIALS HANDLING PROJECT for Silo 7 Alumina Handling and Storage facility at the Port facilities of DUBAI ALUMINIUM COMPANY LIMITED inside Jebel Ali Free Zone, Jebel Ali, Dubai, United Arab Emirates.

They have completed the erection and commissioning of the mechanical equipments and piping to the satisfaction of both our management and our client. We would recommend them for other projects and wish them all the best in their future endeavors.

We also confirm their commitment to the Health, Safety, Quality and Schedule requirements of the project.

Yours sincerely
Alcan Alesa Engineering Ltd.
